SOME MODERATE RISK HEALTH CONDITIONS?
USE JUDGEMENT TO DECIDE IF RISK FACTORS WOULD BE TOO GREAT FOR F2F APPT

How are your symptoms affecting you at the moment?

Are your symptoms affecting your ability to work?

Are your symptoms limiting your ability to care for yourself?

Are your symptoms limiting your ability to care for others?

Are your symptoms significantly affecting your sleep or wellbeing?

SOME ANSWERS YES

DO ANY OF YOUR HEALTH FACTORS MAKE IT MORE APPROPRIATE FOR A VIRTUAL FIRST APPROACH?

OR

COULD WE TRY VIRTUAL ADVICE AND EXERCISE AS A FIRST LINE OF TREATMENT THEN RE-ASSESS SITUATION ?

NO

YES

BOOK VIRTUAL CONSULTATION

VIRTUAL APPROACH VIA TELEPHONE OR VIDEO WOULD NOT HELP RESOLVE SYMPTOMS
VIRTUAL APPROACH HAS BEEN TRIED BEFORE

CONTINUE TO BOOKING A FACE TO FACE APPOINTMENT

Do you understand the following before confirming a face to face appointment?	Please Tick
Rationale for a face to face appointment is clearly indicated by symptoms as it is felt that a virtual appointment would not meet clinical needs	
Face to face appointment is only appropriate if the benefits are greater than risks of attending clinic	
Treatment will involve bodily contact, direct / indirect touch within the 2m recommended COVID -19 government social distancing measures but must be socially distanced at all other times.	
Confirm there has been NO high risk conditions, NO contact with COVID, NO recent quarantine, NO overseas travel within last 2 weeks	
Virtual assessment / treatment is declined and face to face is requested understanding the risks	
Personal Protective Equipment (PPE), face mask, aprons, gloves will be used by physio & mask worn by patient. Clinic cleaning regime understood & hand hygiene protocols agreed.
